

Strategic Plan

2024-2027

Welcome to our Strategic Plan 2024-2027

The needs of patients, families, and the local community we serve are changing all the time and we recognise that we need to change too to meet those needs. We have reviewed our 2021-2025 strategic plan considering our achievements since it was launched, and the changing landscape of the environment that North London Hospice works in, and opportunities this presents. This plan sets out our ambitions over the next three years and captures our passion for reaching more people and doing what we can to help those who need us.

We know that what we do makes a difference and looking forward we want to make a bigger difference, for more people.

Our strategy is focused on sustainable long-term impact and to ensure we achieve our vision '**the best of life, at the end of life for everyone.**'

North London Hospice is ideally placed to innovate in the development of new models of care and the skills needed to deliver this strategy and to be the leading provider in the future provision of specialist palliative care services across the Boroughs of Barnet, Enfield, Haringey, Camden & Islington.

We will ensure outstanding care and support is at the heart of what we do, offering this across our community to those facing a life limiting illness. We will increase the number of people provided with personalised care through service and operational improvements, so that our hospice continues to play a vital role for the communities we serve. We will review services and support functions as appropriate, change models and delivery where necessary and develop new initiatives.

2

We are committed to ensuring financial stability and long-term viability, whilst investing for growth and development. We will manage our resources to ensure we achieve the greatest impact with our work in our community. We will work together in partnership, and in an integrated way to achieve our ambitions. We will transform communication and information sharing and deliver improved systems and ways of working with investment in technology.

3

We will recruit, retain, and invest in our people to be the best they can be. We will use our expertise and skills to improve, and deliver, the palliative care and support we pride ourselves on to more people across our community. We value equality, diversity and inclusion and will develop leadership and our workforce which is representative and responsive to the communities we support.

North London Hospice cares for patients with a life-limiting illness and supports their families, friends, and carers too. We care for patients in the communities of Barnet, Enfield, and Haringey and in our Inpatient Unit in Finchley. We also provide some services in Camden and Islington. The hospice was established in 1984 as the UK's first multi-faith hospice and each year we care for over 3,500 patients. We are an independent charity and provide all our care, free of charge.

We will create a positive culture, where diversity, inclusion and respect are core values and at the heart of all our activities.

We will review our approach to supporting volunteers and launch a new strategy to help recruitment and retention.
